

UPDATED ON 8/1/20 Please read NEW INFO!

As stated in our last few posts, we are proceeding with our plans for our outdoor performances. We have made additional changes according to the CDC guidelines and current State of Michigan phases.

- We have made adjustments in the show orders to minimize the number of dancers and the number of fans in the audience.
- Unfortunately, with the new guidelines that limits the number of people inside a business, we **have cancelled all professional PHOTOS for the weekend.**
- We will not be providing group photos and individuals photos. Fans can take photos and video during the performances from their seats.
- Reserved parking will be available for elderly or compromised adults who would like to watch the show from their car. Please inform Jesyka by email if you would like to reserve a parking spot in view of the stage at studiomanager@aotadance.com by August 13. Please mention the show and time you will need the parking spot reserved.
